

Shubham Karkhile: Angular Developer

Pune, India | +91 88880 52579 | shubh.karkhile@gmail.com [LinkedIn](#) | [GitHub](#)

Professional Summary

Performance-driven Senior Angular Developer with **3.6+ years of hands-on experience** architecting enterprise-grade web applications within the **MEAN stack**. Specialized in the **Angular 2+, Angular 17+** ecosystem, including **Signals, Standalone Components**, and **NgRx** state management. Proven expert in driving **Frontend Ownership** for large-scale portals, optimizing **Reactive Programming** streams with **RxJS**, and integrating AI-powered solutions. Dedicated to high-performance engineering, reducing API latency and load times through **Change Detection (OnPush)** strategies and scalable component architecture.

Technical Skills Matrix

- **Core Frontend:** Angular (v2+ – v17+), TypeScript, JavaScript (ES6+), HTML5, CSS3, SASS.
- **Reactive Programming & State Management:** RxJS (Observables, **switchMap**, **debounceTime**, **takeUntil**), NgRx (Store, Effects, Actions, Selectors), **BehaviorSubject**, **Signals**.
- **Architecture & Patterns:** **Standalone Components**, **Dependency Injection**, **Change Detection (OnPush)**, **Lifecycle Hooks**, **Modules**, **Services**.
- **Development Tools & Testing:** **Jasmine**, **Karma**, Angular CLI, Git, GitHub, Bitbucket, Postman, VS Code.
- **UI Frameworks & Design:** **Angular Material**, **Bootstrap**, **Accessibility (a11y)**, **Responsive Design**, **Material Design**.
- **Backend & Database:** Node.js, Express.js, MongoDB.
- **Third-Party Integrations:** Razorpay, Twilio, CERSAI eKYC, OpenAI/Gemini APIs, ElevenLabs.

Professional Experience

Digital Crown IT Systems | Mumbai, India **Angular Developer** | Dec 2024 – Present

- **Orchestrated** the frontend architecture for the Mahindra & Mahindra Supplier Portal, utilizing **Angular 16**, **Standalone Components**, and **Angular Material** to modernize procurement and invoicing workflows.
- Engineered a high-performance state management layer using **NgRx Store and Effects**, ensuring data consistency across complex supplier registration modules.
- **Optimized** application performance by implementing **OnPush Change Detection** and lazy loading, **reducing portal load time by 30%** and **improving code reusability by 40%**.
- **Directed** the integration of **AI-powered chatbots** via Twilio and OpenAI/Gemini APIs, enabling real-time voice and text multi-agent communication.
- Ensured 100% compliance with enterprise **Accessibility (a11y)** and **Security Standards** across all deployed features for 50k+ daily users.

- **Integrated** backend microservices using Dot Net MVC Framework & Python Django to support real-time messaging and multi-agent communication streams.

Setu Net Pvt. Ltd. | Vapi, India **Jr. Full-stack Developer** | Mar 2024 – Jul 2024

- **Spearheaded** the full-scale migration of core enterprise applications from **Angular 6 to Angular 11**, successfully resolving breaking changes in **RxJS operators** and **Angular Material modules**.
- **Refactored** legacy data streams using **switchMap** and **mergeMap**, **improving app stability by 30%** post-migration.
- **Coordinated** production releases and regression testing with QA teams, ensuring seamless deployment of high-availability features.
- Mentored junior developers on **TypeScript** best practices, **Dependency Injection** patterns, and modular component design.

One Roof Technologies LLP | Mumbai, India **Software Developer** | Aug 2022 – Jan 2024

- **Architected** the complete frontend for the ICICI Lombard Insurance Portal, including high-traffic Health and Motor insurance dashboards.
- Implemented complex business logic and workflows, including **policy search via Customer ID, OTP-based validation**, and **dynamic add-on selection** modules.
- Leveraged **Reactive Forms** with **FormBuilder** and custom validators to handle secure quote generation and eKYC identity verification via **CERSAI APIs**.
- **Optimized** HTTP communication and caching strategies using **RxJS**, which **reduced API latency by 25%**.
- Developed comprehensive agent/admin dashboards featuring real-time policy analytics and automated certificate generation.

Techivies Solutions Pvt. Ltd. | Ahmedabad, India **Full-stack Developer Intern** | Feb 2022 – Aug 2022

- Contributed to a **MEAN stack** Supplier Relationship Management (SRM) project, designing responsive UI layouts for property and supplier listings.
- Integrated RESTful APIs and applied **Angular component-based architecture** to deliver scalable frontend solutions for a US-based client.

Key Technical Projects

iTrendss E-Commerce Platform *Full-stack Developer* | [Live Project](#)

- **Architected** a production-grade e-commerce solution using **Angular, Node.js, Express.js**, and **MongoDB**, featuring comprehensive user and admin control panels.
- **Engineered** secure authentication flows using **JWT** and integrated **Razorpay** for secure transaction handling and automated payment processing.
- **Deployed** a scalable architecture using Firebase Hosting and Railway, configuring **Nodemailer** for automated customer order and delivery status notifications.

Education & Certifications

- **B.Sc. in Computer Science** | Savitribai Phule Pune University (2023) | **8.48 CGPA**
- **Angular Certification** | Cutshort (2024) | [Verify Certificate](#)

Additional Information

- **Methodologies:** Agile/Scrum, SDLC, CI/CD (Jenkins/GitHub Actions).
- **Testing:** Proficient in unit and integration testing with **Jasmine**, **Karma**, and **TestBed**.
- **Languages:** English (Professional), Hindi (Fluent), Marathi (Native).
